MDOE Essa Dashboard

Link -> https://www.maine.gov/doe/dashboard

- Contains data on academic performance, student behavior, per-pupil spending, and other important education metrics
- Automatically visualizes data
- Allows you to sort by year, district, and school
- Data tends not to go back further than one to three years

Example: To see how students in your district have performed on the Maine Education Assessment (MEA) do the following:

1. *Click on the link above.*
2. *Under "Report Type" select "District".*
3. *Under "Select Name" select your district.*
4. *Click on "State Assessment".*
5. *Click on "View Over Time".*

You will then see how students in your district have done on the English, math, and science MEAs in recent years.

MDOE Data Warehouse

Link -> https://www.maine.gov/doe/data-reporting/reporting/warehouse

- Contains data on student behavior, attendance, enrollment, and other important education metrics
- Does not automatically visualize data; gives Excel spreadsheets instead
- Allows you to sort by year, district, school, demographics, depending on item
- Data goes back several years, sometimes across multiple spreadsheets

Example: To see the rates of chronic absenteeism for students in your district do the following:

1. *Click on the link above.*
2. *Select "Attendance".*
3. *Click on "Chronic Absenteeism 2022-2023". This will download an Excel file with the data.*
4. *Go to your downloads and click on the Excel file to open it.*
5. *On the lower tab of the Excel file, click on "By SAU and School District".*
6. *Scroll down until you find your school district.*

You will then be able to see the chronic absenteeism rate for students in your district.
